

### Going to the pet shop

You have gone to the pet shop and you have 10p with you to buy some new fish. What fish can you buy for your money? Choose a challenge to try....

#### Challenge 1:

You can only buy two fish. Which fish could you buy with your money?

Instructions: Start with 10p

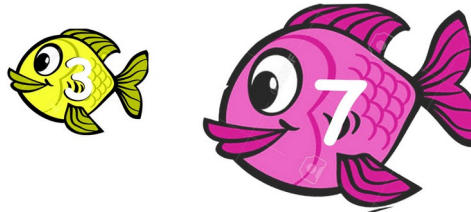

Choose a fish and subtract the number from 10.

How much money do you have left? Can you buy anymore fish from the shop?

Example:

$$10 - 3 = 7$$

$$7 - 7 = 0$$

#### Challenge 2:

The shop has lots of each fish. Which fish could you buy with your 10p.

#### Challenge 3:

You save up some more pocket money and now you have 20p to spend, which fish would you buy with your money?

#### Extension:

With your 10p how many.... 1p fish..... can you buy?

Try all the numbers up to 10. What do you notice?
