• L.O: To create a mind map about space

Task 1: Your task for this afternoon is to create a mind-map all about the things you already know about space.

You can decorate it with space drawings and can add any interesting facts that you know about Space or that you find from a little bit of research on the internet.

Task 2:

If there is anything you would like to know about space, what would it be?

You don't have to write all of your questions today: but they must be in by Wednesday at the latest so we can send them to the scientists before Friday.
