

Our Local Town: Boston

Geography

Boston

Boston is a town in England. It is in the county of Lincolnshire.

Natural environments:

A natural environment is an area that is not man made. It has both living and non-living things in it.

Rivers

Fields

Forests

Destroying natural environments :

Sometimes the way humans treat our natural environments can lead to them becoming threatened.

Air or water pollution

Littering

How can we help?

We can teach others about how to Reduce, Reuse and Recycle.

Glossary

County: An area of land within a country, with it's own local government.

Litter: Rubbish that is dropped on the floor rather than put in a bin.

Natural environment: An area that is not man made.

Pollution: The introduction of a harmful substance into an environment.

Town: A built-up area that is larger than a village and generally smaller than a city.

Reduce: To use something less.

Reuse: To use something again.

Recycle: To turn something into a new object to be used again.
