

Rain and Sunrays

Art

Printmaking

A print is a picture made by transferring an image from one surface to another.

Weather motifs:

A motif is a decorative sign or an object that is used to represent something. Weather motifs represent different types of weather, such as cloudy or sunny.

Collagraphy

Collagraphy is a method of printing. To make a collagraph, materials are stuck onto a block to make a collage or picture. The collagraph block is coated with a layer of ink. Paper is pressed onto the inked surface and then peeled off to reveal the print.

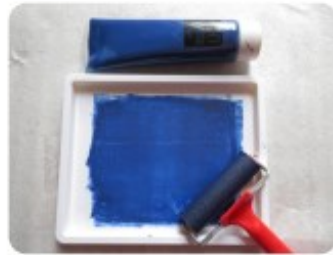

Printing materials:

Special equipment is needed to make a collagraph.

printing rollers

printing tray

coloured printing inks

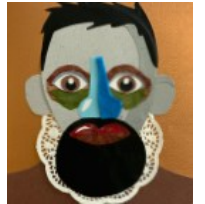

textural materials

Glossary

Block: A flat surface, such as cardboard, on which materials are stuck.

Collage: A picture made up of different, smaller parts.

Collagraphy: A method of printing where materials are stuck to a block before being painted and printed.

Equipment: The tools and materials needed for a particular purpose, such as printing.

Ink: A coloured gel or solution, used to colour a surface.

Method: A way of doing something.

Pattern: A design in which lines, shapes or colours are repeated.

Texture: The surface of a piece of artwork. Texture can be described using words like rough or smooth.
